The CE-mark means that the product complies with the basic requirements of EU directive EEC/89/686 and 96/58/EC relating to personal protection equipment. The product has obtained the following performance levels during tests in a notified laboratory:

EN 388

1 X 2 X

EN 388 mechanical hazards

abrasion resistance

1 (4 levels, 1= lowest, 4= highest)

tearing resistance

2 (4 levels, 1= lowest, 4= highest)

EN 407

42XXXX

EN 407 heat and fire

flammability

4 (4 levels, 1= lowest, 4= highest)

contact heat resistance

2 (4 levels, 1= lowest, 4= highest))

EN 511

131

EN 511 cold hazards

convective cold

1 (4 levels, 1= lowest, 4= highest)

contact cold

3 (4 levels, 1= lowest, 4= highest)

water impermeability

1 material fulfills the requirements

The Institute of Occupational Health, Department of Physics (NO. 0403), Laajaniityntie 1, FIN-01620 Vantaa, has inspected this product in accordance with the personal protective equipment Act 1406/93 issued by the Finnish Council of State.
