THE WORLD'S BEST SELLING STRAP WRENCH

The Boa Constrictor multi-purpose wrench is the world's best selling strap wrench. With millions of satisfied users this original multi-use strap wrench has over 10,000 different uses. This versatile tool has given us the throwaway comment of "Get a grip - Get a Boa" this product is even NATO approved.

The Boa multi-purpose strap wrench is standard issue for the world's largest industrial areas.

Used in - Aerospace - NATO - Optical - Automotive - Irrigation - Agriculture - Marine - Leisure - Construction - Petro - Chemical - Swimming Pool - Aqua culture - There's even a medical spec' Boa.

The Boa Constrictor comes in 5 different sizes ranging from (10 - 305mm) or (3/8" to 12"). The Boa is branded for some of the world most recognised names (it's also been knocked off by a few as well!).

This original product has a lifetime guarantee so you know it's Quality. Boa has a range of bespoke products that we can tailor to your individual needs with online and in-store promotions and colour to match YOUR livery.

Offering amazing strength and exceptional leverage, the Boa Constrictor will grip, twist, tighten and unscrew any shape or material without scratching. The Boa has received numerous awards for design and was the first of its kind, and continued success has made the Boa Constrictor a globally recognised hand tool with power and performance. We continue to innovate in new areas like Petro Chemical or Medical the world is still finding uses for the Boa multi use strap wrench like V R containment cages. It will wrap around anything with a diameter of between 10 and 305mm and its strap, which is reinforced with industrial quality fibre strands, is strong enough to pull a small car.

What's more the contoured handle of toughened polypropylene or aluminium gives you powerful leverage in the tightest of spots.

In all, the Boa Constrictor is an invaluable tool with thousands of applications.
