CONSTRUCTOR

- ◆ **Any shape**
- ◆ **Any material**
- ◆ **No scratching**
- **Heavy duty**

The Boa Constrictor multi purpose wrench is the original; this multi award-winning product has sold over 15 million units worldwide. It has literally thousands of uses and is available in a number of different models, from 5mm to 305 mm (1/4" to 12"). It will grip, open, unscrew, or tighten almost anything without scratching and comes in five sizes, which makes it equally suitable for industrial, domestic and DIY use. The toughened polypropylene or aluminium handle contains a strengthened rubber adjusting strap with a breaking strain in excess of 2000lbs, so substantial leverage can be applied.

The power to open

The Boa Constrictor multi-purpose wrench is the world's No. 1 original - it has over 10,000 different uses and has sold an astonishing 15 million units worldwide. Through promotional and advertising campaigns in nine countries, this versatile tool has become a household name. NATO-approved, the Boa Constrictor multi-purpose wrench is standard issue for some of the world's largest industrial groups including aerospace, safety, optical, automotive, agriculture, marine, leisure, construction and chemical – there's even a medical spec Boa.

The Boa Constrictor comes in a number of different sizes with models ranging from 5mm to 305mm (1/4" to 12"). Our new soft grip version performs just as well around the home as in industry. We also have a range of bespoke products that we can tailor to your individual needs, both in colour and specification, and we brand the Boa for some of the world's best known names.

Offering amazing strength and exceptional leverage, the Boa Constrictor will grip, twist, tighten or unscrew any shape, and any material, without scratching. Popular with professionals and DIY enthusiasts alike, it has received numerous awards for design and is equally at home in the kitchen drawer as it is in an engineer's van.

From gas bottles and water filters to radiator taps, sleeves and drainage pipes,

there's nowhere the Boa won't go. It will wrap around anything with a diameter of between 5 and 305mm and its strap - which is reinforced with 33 industrial quality fibre strands - is strong enough to pull a small car. What's more, its contoured handle of toughened polypropylene or aluminium gives you the same powerful leverage in the tightest of spots.
