Independent Finnish marine electronics service company

Marine Electronics Service • Surveys • Commissioning • Retrofit

Professional support for marine navigation and communication systems.

J.S.Marine Oy Ltd is an independent Finnish marine electronics service company established in 2011. The company provides professional service, surveys, commissioning, installation and retrofit solutions for marine navigation and communication systems. With more than 25 years of maritime electronics experience, J.S.Marine Oy Ltd is recognized for technical expertise, flexibility and reliable workmanship throughout Europe.

CORE SERVICES

GMDSS & VDR

- GMDSS radio surveys
  - Incl. EPIRB, GMDSS and AIS
- VDR Annual Performance Tests (APT)

Service & Repair

- Navigation and communication equipment
- Radar, ECDIS and VDR/S-VDR systems
- Associated sensors and bridge equipment

Projects

- Commissioning and installation
- Retrofit and modernization projects
- Integrated navigation system support

EPIRB SBM

- JOTRON
- McMurdo
- Kannad

AT A GLANCE

25+	60+	5
years of maritime electronics experience	GMDSS surveys and VDR APTs annually	classification societies with approvals listed

EXPERIENCE FOUNDATION

1999

Field experience begins

Marine navigation and communication service engineering.

2011

J.S.Marine established

Founded to conduct GMDSS radio inspections onboard SOLAS vessels.

Today

Broad service capability

Survey, service, commissioning, installation and retrofit support.

Technical Capability & References

Extensive hands-on experience covering navigation, communication and integrated bridge systems.

TECHNICAL EXPERTISE

- NACOS Marine
  - Integrated Navigation Systems
- SAILOR / Cobham
  - GMDSS
- Danelec
  - VDR systems
- Seas Of Solutions
  - VDR Systems
  - EPIRB Shore Based Maintenance
- JOTRON
  - EPIRB Shore Based Maintenance

Systems include Integrated Bridge Systems, VDR/S-VDR, GMDSS and associated navigation sensors.

CLASSIFICATION SOCIETY APPROVALS

Approvals held for relevant GMDSS, AIS and VDR survey/test scopes. Detailed approval numbers are maintained in company records.
