

## Contains:

2 x Lice Caps  
1 x Nit Comb  
1 x Guidebook

### STEP BY STEP INSTRUCTIONS

Establish if there are any live head lice present, if you find anything check all of the family and inform close friends.

**1** Place the cap over your hair, making sure you have covered all of your hair and scalp down to the nape of your neck and the back of your ears.

**2** Massage your head through the cap, working the oil through the strands of hair and down to the scalp.

**Important:** Spend at least 2 minutes on this, ensuring that all your hair is coated with the oils.

**3** Leave in place for 10 minutes without touching or moving the lice cap.

**4** After the 10 minute wait time is up, **repeat step 2 and 3 a further 3 times**. In total you should allow 40 minutes of resting time for the natural oils to work down to the scalp.

**5** Use the lice comb provided to methodically work through your hair to remove the dead lice and their eggs. Take your time with this as it's essential that you remove all the eggs that you can see. **Repeat step 5 daily for the next 3 days.**

After a further 2 weeks, then **repeat the whole process again** with the second cap to ensure that no lice have survived. It's unlikely that you will feel the need to repeat the process but you must do it anyway - as one nit that was left behind could cause a reinfestation.

## LICE CAP

NEW AND UNIQUE SOLUTION FOR LICE TREATMENT  
CE MARKED CLASS II A CE CERTIFICATE

### What is a head lice cap ?

A thick cap tha impregnated with essential oils desinged to eradicate head lice. It looks and feels just like a regular shower cap.

The Med-Cover lice cap is different from mainstream head lice products as it doesn't contain the neurotoxins and pesticides that are often used to kill head lice. These chemicals (such as Permethrin)actually a common garden pesticide. Who would want that on their head?

Instead, the Med-Cover lice cap contains natural ingredients , such as tea tree oil , eucalyptus oil, aloe vera and lavender oil.

### Does it work ?

Yes , it really does. We took a different approach and with it we've achieved a 99.9% succes rate.

### How does it work ?

Just because it's natural doesn't mean it's nice. The essential oil compounds pass through the cuticle of the louse and up to their trachea causing death by suffocation.

The reality is there is no 'nice' way to rid your hair of lice , and just two ways to get rid of them: using chemicals that can harm you , your hair and your scalp, or the Med-Cover way , that uses natural ingredients to kill the lice with no lasting impact on you or your hair.

## 5 BENEFITS OF MED-COVER LICE CAP

Very easy to apply as the patented Formula is contained inside a shower cap. No dripping, no water and no mess.

Results are visible withing just 45 minutes. The head lice die from suffucation from the natural oils present in the cap. The natural oils present in the cap coat the lice , causing their suffocation and eradication.

There are no toxic chemicals, no harsh materials and no insecticides in our special Formula. The Med-Cover head lice cap is a natural treatment that uses only essential oils such as tea tree oil, eucalyptus oil , aloe vera and lavender.

The natural oils help to heal the scalp from painful bites and the results of scratching and itching. The soothing aloevera and eucalyptus oils coat and clean the scalp with just one treatment.

Following treatment, hair is clean and Grease free, with no pesticides, silicone or plastics present in the scalp.
