We follow the light.

A luminous idea was brought into reality, when Ward Mertens founded Lucide in 1992.

He had a clear vision: to make unique and high-quality lighting products available to everybody.

Over the past 30 years the company kept growing, transitioning from a modest family company to an important international player in the lighting industry.

With an evolving market, transition to digitalization and an increasing demand for sustainability, the second generation, Wim and Niek, stepped up to help and to assure a successful future of Lucide.

Luxurious eyecatchers to illuminate your home.

Discover our premium range of lighting products, designed exclusively for those who seek the finest in quality and elegance. Each piece in our collection is crafted with care, blending innovative technology with timeless design to create truly exceptional lighting solutions.

From elegant pendants to sleek, modern fixtures, our lighting solutions are made to enhance any space with warmth and style. Whether you're looking to make a bold statement or prefer subtle, understated elegance, our premium range offers the perfect solution for those with taste.

Made from high-quality materials, these products are built to last, ensuring durability and lasting beauty. With features like adjustable brightness, rechargeability, adaptable lighting color, and customizable options, our lighting not only brightens your space but also reflects your unique style.

Available only through premium partners, Lucide's prestigious and exclusive selection allows you to set yourself apart and elevate your product line with lighting that exhibit luxury and sophistication.

UFOR

Black

57251/06/30

Ufor stands for euphoria and greatness. Although the design of this round wall lamp is somewhat compact, it efficiently uses its skills for your lighting needs. The wall lamp has an integrated, dimmable LED bulb with extra warm, white light. The decorative lampshade slightly mutes the direct light, and whoever uses the touch dimmer at the bottom of the lamp can vary the strength of the light to their heart's content. In addition, Ufor is tilts vertically, so you can easily adjust the direction of the beam. Ufor has no limits, just like your comfort.

LINIAL

Introducing our new track lighting concept **‘Linial’**, a beautifully engineered system that blends effortlessly into modern interiors. Designed to complement any modern home, this elegant system offers intuitive smart control through a mobile app or voice assistant, giving you effortless command over your lighting environment.

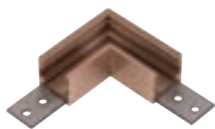

With the smart control system, you can fine-tune brightness and color temperature from anywhere, while the magnetic mounting system allows for quick, tool-free repositioning of fixtures.

The sleek and minimal look make it a true design statement.

- **Smart Control:** Easily manage the lighting system via the mobile app or voice assistants for seamless integration.
- **Remote Adjustability:** Adjust brightness and color temperature from anywhere.
- **Magnetic Mounting:** Enables effortless repositioning or replacement of light fixtures without tools.
- **Low Voltage (48V):** Energy-efficient and safe, making it ideal for public and commercial installations.
- **High CRI-value:** Ensures true-to-life color accuracy, enhancing the appearance of objects and spaces.
- **Modern Aesthetics:** A sleek, minimalist design that complements contemporary architectural environments.
