

POP UP!

STORYTELLING GAMES

This range was inspired by pop-up books, which create scenes and figures using paper planes.

Figures are created from planes that communicate with each other so that children can create their own stories. These same planes are what make up the play spaces and incorporate various accessories that enrich the playability of the elements.

The protagonists of this range are animals, birds and fish, combined with little houses and shelters.

In addition, we incorporate HDPE with a recycled core, thus improving the sustainability of our products.

**A great range of games
for the little ones**

DESIGN AND PEDAGOGY

POP UP! is a range of games designed for children aged 1 to 6 years old, so the designs follow certain criteria to suit these ages.

- Combination of easily accessible play elements with others that allow for taking more risks, always with low fall heights.
- Inclusion of manipulative and sensory games to encourage psychomotor skills and create surprise.
- Contrast between the use of geometric shapes in the houses with the curved designs in the animals, which results in very friendly and easily recognizable shapes.
- Inclusion of a new range of pastel colors, very suitable for these ages, creating play spaces with a calm character.

STYLES

The following panel and structure variants are offered to configure POP UP! in the way that best fits each space in which it will be located:

01

- Main panels: HDPE with recycled core, in pastel violet, pastel orange and pastel green.
- Structure: light grey.
- Injection accessories: orange.
- Floors: grey HPL.

01

02

- Main panels: HDPE in yellow, pastel green and sand brown.
- Frame: beige.
- Injection accessories: orange.
- Floors: grey HPL.
