# Why we chose this name and logo?

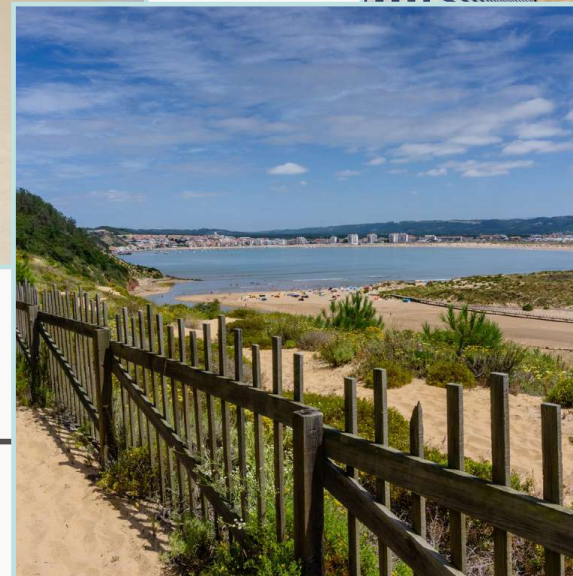

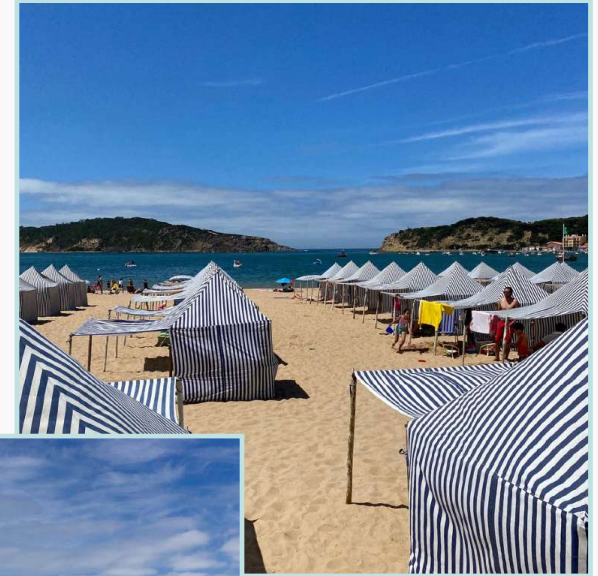

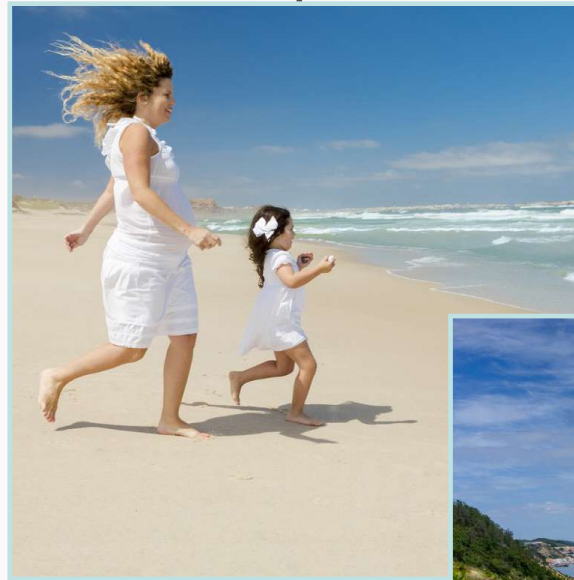

Natureza = Nature :

1. *The fundamental qualities of a person or thing; identity or essential character.*
2. *The phenomena of the physical world collectively, including plants, animals, the landscape, and other features and products of the earth, as opposed to humans or human creations. "the breathtaking beauty of nature"*

We want to provide guests with a clear understanding of the essence of your villa. Emphasizing the beauty and distinctive features that define your home and the experiences it offers. Your villa stands out for its exceptional location and individuality. What will truly captivate guests is its unparalleled charm, nestled amidst picturesque vineyards, proximate to the serene ocean and expansive white beaches, conveniently close to a bustling town for grocery needs, and adjacent to Portugal's largest saltwater lagoon, offering an array of nature and water-based activities.

The Logo works because it is simple and it keeps the focus on the Villa. The Logo needs to emphasise the message and the actual villa.
