COMPANY OVERVIEW

ABOUT US

Advanced Construction Company (ACC) is a specialized engineering consulting firm with a remarkable experience in fire & life safety, design, site supervision and project management.

ACC offers advanced engineering services, gaining clients' trust through diverse, creative, and unique design solutions. They provide innovative, reliable, and environmentally sustainable solutions, addressing client concerns and ensuring high-quality, state-of-the-art designs throughout the project's initial to completion stage.

MISSION, VISION & VALUE

MISSION, VISION & VALUE

Mission

Our mission is to drive innovation in construction and safety engineering, supporting Saudi Vision 2030 by building safer, smarter, and stronger communities. We integrate advanced occupational safety systems with architectural, structural, and MEP expertise to deliver trusted solutions. Our goal is to be the region's first choice and a benchmark for excellence in safety, engineering, and consulting services.

Vision

Our vision to set the benchmark in engineering and safety consulting, shaping a safer and stronger future for generations to come.

Value

ACC is committed to solutions that are innovative, reliable and environmentally sustainable. We guarantee engineering services of the highest quality, and are committed to providing state of the art designs that address the concerns of our clients, as well as our commitment to be environmentally conscientious.

WHY US?

1

We have the right team in the right place

Mixture of scientific and practical experience that perfectly suits the requirements of any project.

2

Experience & knowledge

We have a proven track record of successful projects in various sectors

3

Engineering solutions & project management

Great success in providing engineering solutions and customized project management that meet customer requirements. Also, A dedicated knowledge base adapting the latest technologies, engineering, project management, and leading business practices to foster innovation.

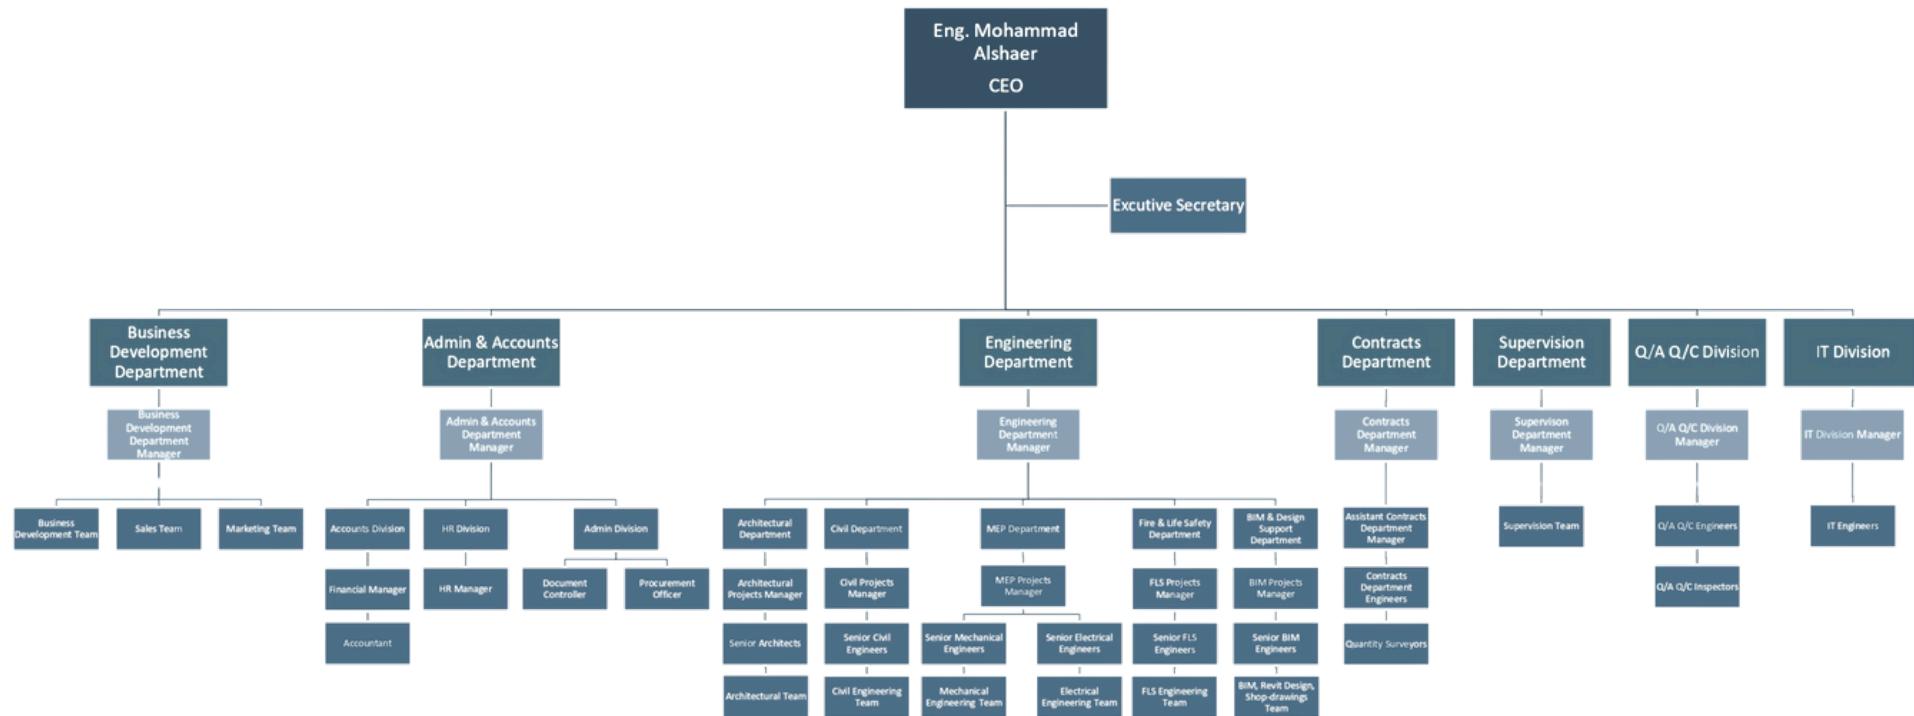

ORGANIZATIONAL STRUCTURE

ORGANIZATIONAL STRUCTURE

The organization of our management structure follows leading practices to ensure that our clients' requirements are met.

OUR SERVICES

OUR SERVICES

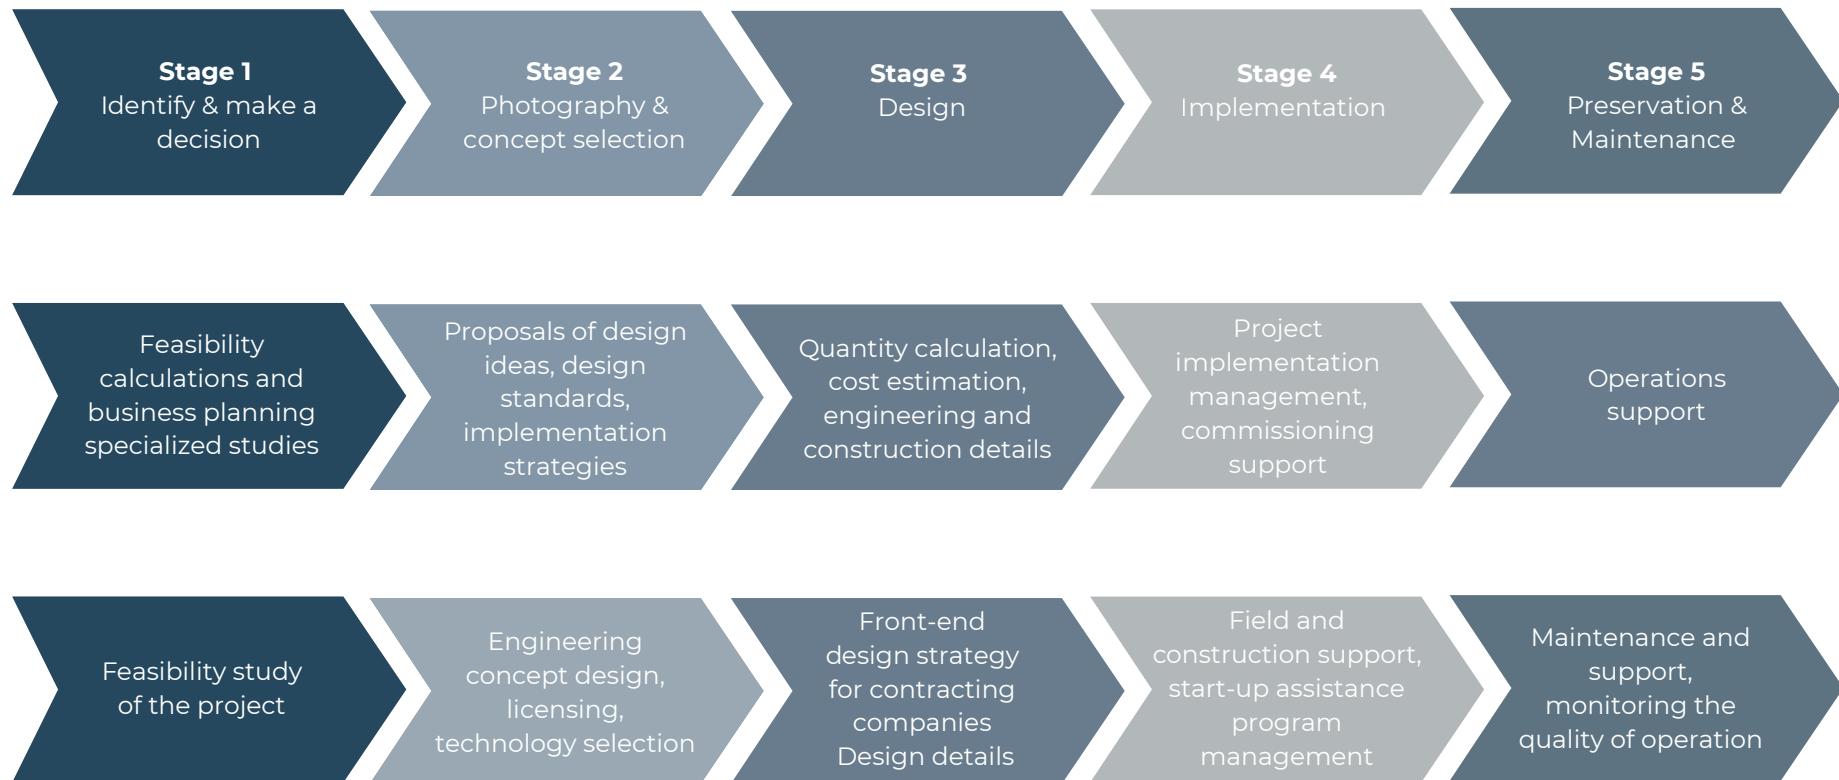

We are a leading company in providing engineering design, program and construction management solutions to most major companies and government institutions in the Kingdom and the Gulf region.

OUR WAY OF PROVIDING SERVICES

Our way of delivering services: We use a specific approach tested by professionals to meet our clients' requirements, achieve project goals and maintain them over time.

FIRE & LIFE SAFETY

Fire and Life Safety (FLS) Systems play a role in buildings' engineering.

FLS are important to apply in all stages of design, installation, commissioning and maintenance to take stringent measures and ensure safety, minimize risks, and help prevent loss and injuries that may rise from fire, electrical, and other hazards.

ACC offers designing FLS systems based on comprehensive analysis and performance requirements to ensure that safety systems are efficient, reliable and comply with the strictest codes and regulations.

And lastly Acc is Certified from the Civil Defense.

Design Review Services

- Firefighting & Fire Alarm Systems.
- Smoke Management System.
- Floor Plans/ Evacuation Escape Routes.
- Fire Protection.
- Fire & Smoke Simulation.
