POOLS  
that are easy to install,

# RELIABLE STRUCTURE

**Your pool is for life. In order to get the most out of it for as long as possible, make sure it benefits from the strength of the market leader.**

The different components of your pool – structural panels, stairs, slabbing – are **all designed and manufactured in France**, at the Piscines Desjoyaux group's own production plant. As you can see, we take quality very seriously – something to bear in mind when making your choice.

Your pool will be installed by true professionals, all of whom are trained in Desjoyaux techniques, and will benefit from a **10-year guarantee on the structure and installation.**

## QUICK INSTALLATION

Not only will you enjoy it for a long time — you'll benefit from it right away! Once the panels are assembled on-site, the builders carry out the reinforcement and pour the concrete for the panels, base slab, and upper and lower beams all in one go. The result: a rot-proof, monobloc, self-supporting pool — and above all, a significant time saver!

\* Installation takes 6 consecutive or non-consecutive days for a standard model depending on weather conditions. With the exception of additional options and not counting the pool deck.

# FOR THE LOVE OF TOMORROW

## 1. L'ÉCOLOGIE AVEC UN GRAND D.

An annual water consumption of **1,1M<sup>3</sup>** with the Desjoyaux system vs. 13.5 m<sup>3</sup> with a sand filter system (for a 35 m<sup>3</sup> pool).

**TWICE** less electricity on average thanks to **PIPELESS FILTRATION**.

## 2. MADE LOCAL, MADE TO LAST.

90% of the components in our pools are manufactured on site.

90% of our suppliers are based within 2,000 km.

## 3. 100% RECYCLED STRUCTURE. 0% WASTED.

Between **5000 to 6000** tons of recycled plastics are used to manufacture our pools.

4. DESJOYAUX,  
IS ALREADY TOMORROW.

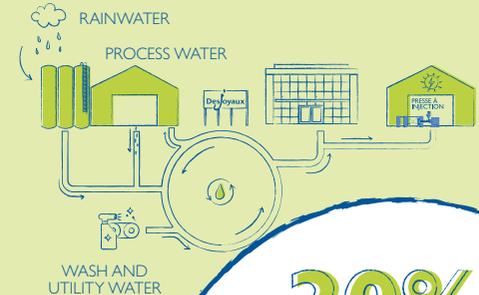

Around **10 MILLION** invested each year in R&D.

## 5. THE CULTURE OF DOING THE RIGHT THING.

Guiding our clients to adopt **RESPONSIBLE PRACTICES** at every stage of their project — these are the values we share.

## 6. RESPONSIBLE ALL THE WAY THROUGH.

**WATER RECOVERY** systems for all buildings to supply processes, toilets, and more.

**30%**

**ELECTRICITY  
SAVED**

thanks to the installation of new, energy-efficient injection molding machines at our site.

DESJOYAUX: THE INVENTOR  
*of pipeless filtration*

# SIMPLE MAINTENANCE

The Desjoyaux pipeless filtration unit means pleasure and nothing but pleasure: there's **no technical compartment, no risk of leaks...** just the choice of a comprehensive range of filtration units, meaning your Desjoyaux pool can be adapted to your needs and desires.

Whether installed as a over the wall type unit or integrated into the structure as a panel, the Desjoyaux system ensures you can enjoy perfectly clear water; thanks to ultra-fine filtration at 6 to 30 microns, depending on the model.
