Anesthesia Frame & Binding Strap & IV Rod

IG Tab 21-1601.0140

L type Anesthesia Frame

Use to place curtain

It's composed of stainless steel anesthesia frame and clamp welded together

Main features

Use high quality su304 stainless steel

Fixed type, no need equip with clamp

IG Tab 21-1601.0295

Standard Anesthesia Frame

- Use to place curtain
- Able to adjust the height, The curtain frame is stretchable

Main features

Use high quality su304 stainless steel

Install on the side rail, clamp sold separately

IG Tab 21-1404.0000

Luxurious Anesthesia Frame

- It's able to make support surface through supporting arm
- The height is adjustable

Main features

Use high quality su304 stainless steel

Install on the side rail, clamp sold separately

IG Tab 21-1601.0305

Adjustable IV Rod

- Swingable IV rod
- Use to hang infusion bags and bottles
- It can swing freely, height is adjustable

Main features

Use high quality su304 stainless steel

Adjustable height range 800mm-1500mm

Install on side rail, including clamp

IG Tab 21-1601.0269

Body Binding Strap

Use to fix patient's body

It's composed of binding strap and fixed buckle

Main features

Use high quality su304 stainless steel

Size: 520x160 (mm);

Length of Strap: 1140mm

Install on the side rail

IG Tab 21-1601.0170

Arm hanging belt

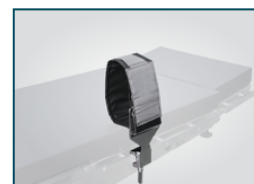

Use to hang patient's arm

It's composed of hanging belt and buckle
It can be adjusted up-down, left-right

Main features

Use high quality su304 stainless steel

Install on the side rail, clamp sold separately

IG Tab 21-1601.0150

Hand Binding Strap

Use to fix patient's arm

It's composed of hand binding strap and support buckle

Main features

Use high quality su304 stainless steel

Install on the side rail

IG Tab 21-FJ-36

Leg Binding Strap

Use to fix patient's leg

It's composed of binding straps for leg and leg board

Main features

Use high quality su304 stainless steel

Install on the side rail

Hand Support & Leg support

IG Tab 21 -1406.2000

Arm Rest (Low Position)

- Used to support and fix patient's arm
- It's composed of arm rest, arm rest adopter, adjustable clamp and pad
- The angle can be adjusted by itself
- It can be adjusted the width and height vertically and horizontally

With two hand binding traps to fix arm

Main features

Use high quality su304 stainless steel

Inside of pad is soft sponge

Thickness of pad : 60mm

Install on side rail, including two hand binding straps, clamp sold separately

IG Tab 21 -1406.1000

Arm Rest (Lateral Position)

- Used to support and fix patient's arm
- It's composed of supporting rod, supporting board and pad
- The angle can be adjusted itself, and the height as well.

With two hand binding traps to fix arm

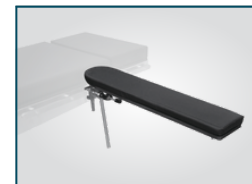

Main features

Use high quality su304 stainless steel

Inside of pad is soft sponge

Thickness of pad : 60mm

Install on side rail, including two hand binding straps, clamp sold separately

IG Tab 21 -1601.0186

Height Adjustable Arm Rest

- Used to support and fix patient's arm
- It's composed of supporting rod, supporting board and pad
- It can rotate freely, height is adjustable

With two hand binding traps to fix arm

Main features

Use high quality su304 stainless steel

Inside of pad is soft sponge

Thickness of pad : 60mm

L x W : 660x140 (mm)

Install on side rail, including two hand binding straps, clamp sold separately

IG Tab 21 -1508.0000 /1601.0270

Arm Surgery Assistant Board /Carbon Fiber Surgery Board

- Use to support and fix patient's arm
- It's composed of supporting frame, supporting board and pad
- Radiolucent

Main features

Use high quality su304 stainless steel and radiolucent board (Carbon fiber is optional)

Inside of pad is soft sponge

Thickness of pad : 60mm

L x W : 800x350 (mm)

Install on side rail, need equip with another tow clamps (#1402.2000)

IG Tab 21 -1510.1000

Extension Board (Pelvis)

- Mainly used to extend the electric operating table
- It's composed of Radiolucent board and support frame

Main features

To use high quality su304 stainless steel and Radiolucent board

Apply to COMFORT 300 operating table

Extension Board Dimension: 524x250 (mm)

IG Tab 21 -1513.0002

Hand Protector

- Mainly used to protect patient's body and arm
- Use high quality stainless steel

Main features

Inside of liner is soft sponge

Dimension: 460x150x130 (mm)

Install on the side rail

IG Tab 21 -5737.0001

Luxurious Lithotomic Leg Support

- bigger size
- adjustable freely
- with binding strap

Main features

Use high quality su304 stainless steel

sponge with leather, soft and cozy

Install on side rail, clamp sold separately

IG Tab 21 -1601.0051

Leg Hanging Frame

- Used to support and fix patient's leg and hand
- It's composed of supporting frame and hanging strap
- Height is adjustable
- It rotates freely

Main features

Use high quality su304 stainless steel

Install on side rail, clamp sold separately

Skull Clamp & Head Support & Leg Plate

IG Tab 21 -1507.0000

Head Support for Ophthalmology Surgery

- Uscto support patient's head
- meanwhile support surgeon's arm
- It's composed of support frame, head support and radiolucent board
- The height of support frame is adjustable

Main features

Use high quality su304 stainless steel

Inside of head support is soft sponge

IG Tab 21 -1601.0380

Skull Clamp (Neurosurgery)

- Uscto fix patient's head when operate neurosurgery
- It's composed of Main body, skull fix frame and spur shape head support
- Able to rotate freely

Main features

Use high quality Aluminum

Install on the bridge support (Neurosurgery support)

IG Tab 21 -FJ-82-00

Bridge Support (Neurosurgery support)

It support skull clamp to fix patient's head

- It's composed of bridge support and locking handle
- able to adjust the height

Main features

Use high quality su304 stainless steel

Install on the side rail, clamp sold separately

IG Tab 21 -1514.0000

Double Joint Head Support

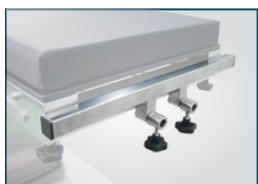

- Uscto support patient's head
- It's composed of supporting frame and head support
- Able to freely adjust the height of joint

Main features

Use high quality su304 stainless steel

Inside of head support is soft sponge

It's be used with 1413.0100/1413.1200 head support adppter

IG Tab 21-1413.1200 (1413.0100)

Head Support Adaptor

- Uscto equip with 1514.0000 head support
- It's composed of support frame and locking handle
- Provided different type of head support interchange on operating table

Main features

Use high quality su304 stainless steel

1413.1200 (for YS-3)

1413.0100 (for 300)

IG Tab 21 -0702.0038

Cylinder Buttock Support

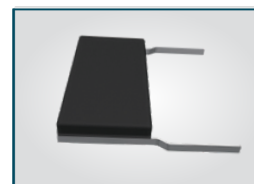

- Uscto support patient's buttock and leg
- It's composed of support frame and buttock support

Main features

Use high quality su304 stainless steel

Inside of buttock support is soft sponge

Install on the side rail, clamp sold separately

IG Tab 21 -FJ-09-00

Leg plate

- Uscto support patient's leg
- It's composed of support frame and leg plate

Main features

Use high quality su304 stainless steel

Inside of leg plate is soft sponge

Liner pad dimension: 280x270x60 (mm)

Install on the side rail, clamp sold separately

IG Tab 21 -1601.0061

Leg Plate (Pair)

- Uscto support and fix patient's leg
- It's composed of supporting frame and liner pad
- able to rotate freely

Main features

Use high quality su304 stainless steel

Inside of liner pad is soft sponge

Liner pad dimension: 280x270x60 (mm)

Install on the side rail, including clamp

Body Support & Shoulder Support & Accessories Cart

IG Tab 21 -1601.0125

Economic body support

- Use to support or fix patient's body
- It's composed of body support and support rod

The height can be adjusted

Main features

High quality su304 stainless steel inside of liner is soft sponge Liner size : 215x100x60(mm) Install on the side rail, clamp sold separately

IG Tab 21 -1601.0315

Luxurious shoulder support

- Use to support or fix patient's shoulder
- It's composed of shoulder support and support rod

The height can be adjusted

Main features

High quality su304 stainless steel inside of liner is soft sponge Liner size : 215x100x60(mm) Install on the side rail, clamp sold separately

IG Tab 21 -1601.0096-A

Luxurious body support A

- Use to support or fix patient's shoulder and body
- It's composed of liners support and support rod
- The height can be adjusted
- 360° rotation is adjustable

Main features

High quality su304 stainless steel inside of liner is soft sponge Liner size : 215x100x60(mm) Install on the side rail, clamp sold separately

IG Tab 21 -1601.0096-B

Luxurious body support B

- Use to support or fix patient's body
- It's composed of body support and support rod
- The height can be adjusted
- 360° rotation is adjustable

Main features

High quality su304 stainless steel Inside of liner is soft sponge Liner size: 215x100x60(mm) Install on the side rail, clamp sold separately

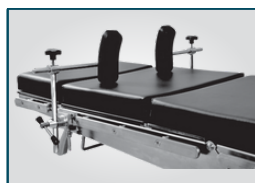

IG Tab 21 -1518.0000

Standard shoulder & body support

- Use to support or fix patient's shoulder and body
- The height can be adjusted
- 360° rotation is adjustable

Main features

High quality su304 stainless steel inside of liner is soft sponge Liner size : 215x100x60(mm) Install on the side rail, clamp sold separately

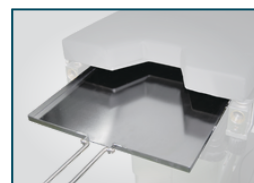

IG Tab 21 -1407.2000

Shoulder Support

- Use to support or fix patient's shoulder and body
- The height can be adjusted

Main features

High quality su304 stainless steel Easy to clean disinfect Length:300mm,Width 300mm,Height 90mm, Load capacity:10Kg

IG Tab 21 -0702.0076

X-ray Cassette Tray

- It's composed of X-ray cassette and handle

Main features

Use su304 stainless steel X-Ray Cassette Dimension: 450x400 (mm)

IG Tab 21 -1504.0000

Accessories Cart

- Mainly use to place table accessories
- It's composed of main frame and mobile castors
- Able to 360° rotation freely

Main features

Use su304 stainless steel With self locking castors

Clamp

IG Tab 21 -1402.0000

Non-adjustable Clamp

- Use to fix round or square surgical accessories
- It's composed of Clamp and handle
- Accessories position cannot be adjusted

Main features

Use high quality 304 stainless steel

Applicable to $\Phi \leq 16\text{mm}$ round rod accessories and profile $\leq 6 * 25\text{mm}$ rectangular accessories

Install on the side rail

IG Tab 21 -1401.0000

Adjustable Clamp

- Use to fix operating table accessories
- It's composed of Clamp and handle
- It can be adjusted freely

Main features

Use high quality 304 stainless steel

It can fix $\Phi \leq 16\text{mm}$ round rod accessories

Install on the side rail

IG Tab 21 -1402.2000

Square Clamp

- Use to fix operating table accessories
- It's composed of Clamp and handle
- It cannot be adjusted

Main features

Use high quality 304 stainless steel

Applicable to $\Phi \leq 16\text{mm}$ round rod accessories and profile $\leq 6 * 25\text{mm}$ rectangular accessories

Install on the side rail

IG Tab 21 -1601.0026

Square Pipe Clamp

- Use to fix operating table accessories
- It's composed of clamp and handle

It can be adjusted freely

Main features

Use high quality 304 stainless steel

Fix 25mmx25mm square pipe

Install on the side rail

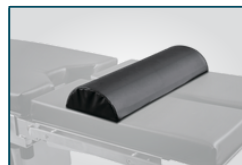

Waste Basin & Sponge Position Pad

IG Tab 21 -1404.3000

Stainless Steel Waste Basin

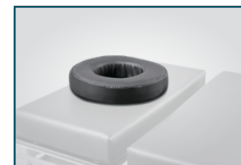

Use to contain surgery waste

IG Tab 21 -1415.0004

Semi-round Pad (Sponge)

To be used under the knee

IG Tab 21 -1415.0001

Head Ring

IG Tab 21 -1409.0000

Single Side Instrument Basin Rack

Use to place instrument basin

It is used with instrument basin 1409.0001

IG Tab 21 -1415.0006

Lateral Position Leg Pad

Tunnel Pad

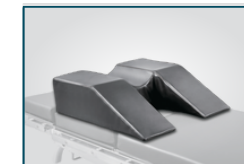

IG Tab 21 -1415.0008

Prone Position Pad (Sponge)

IG Tab 21 -1415.0003

Knee Position Pad (Sponge)

IG Tab 21 -1415.0005

Head and Shoulder Pad (Sponge)

IG Tab 21 -1415.0007

Lateral Position Pad (Sponge)

Accessories for Standard Configuration & Orthopedic tractor

IG Tab 21 -1406.0000/1503.1000

Arm Rest Hand Binding Strap

- Adjustable by joint adaptor, flexible and meet different patient's surgical position

Easy to clean and disinfect

Main features

Use high quality SU304 stainless steel
Thickness of pad: 60mm

Load capacity: 20Kgs

IG Tab 21 -1505.0000

Economic Lithotomic Leg Support

- Use to support patient's leg
- It's composed of supporting rod, leg pad
- it rotate freely

Main features

Use high quality su304 stainless steel
The leg pad is made of polyurethane foam
Install on side rail, clamp sold separately

IG Tab 21 -1503.0000

Body Binding Strap

- Use to fix patient's body
- It's composed of binding strap and fixed buckle

Main features

Install on the side rail
Use high quality SU304 stainless steel

IG Tab 21 -1404.1000

IV Rod

- It's suitable for hanging infusion bags and bottles
- It can swing freely

Main features

Use high quality SU304 stainless steel
Easy to clean and disinfect
Load capacity: 50Kgs

Orthopedic tractor #1102.0000

Main features

The table top elevation displacement of the orthopedic tractor is 350 mm. It can be adjusted according to the elevation displacement of the operating table, which is favorable for the medical personnel to operate and use.

The pelvis support plate and pad and the perineum pillar are both made of nonmetallic material, which will not influence the X-ray shooting. During operation, the pad will not be moved. At the same time, the pelvis support plate and pad can be dismantled in order to radiograph, fix film carrier, clean and to disinfect.

The orthopedic tractor can be stretched from 0 to 700 mm.

The maximum carrying capacity is 160 kgs.

The maximum traction displacement is 180 mm and the maximum traction power is 400 N.

The orthopedic tractor can be folded outside and inside in order to meet the needs of all surgeries.

The safety design of the orthopedic tractor is in accordance with the general require for safety of Medical Electric Equipment GB9706.1-2007.

The orthopedic tractor can be used more than 5 years.

Other Accessories

IG Tab-401.000005

Pneumatic stirrup (pair)

- One hand control. Move freely and easily set at required position. With mattress and bidding strap.
- Clamp on the side rail.

Main features

Use high quality su304 stainless steel

Inside of leg support is soft sponge

Install on the side rail, clamp sold separately

IG Tab-5737.0022

Economic Precise Leg Support

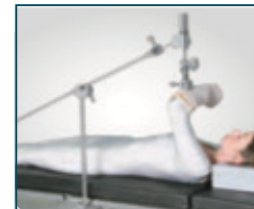

- Integrated booth, combine with soft liner
- Able manually adjust and fix to desired position
- Working load 158KG(350LB)

Main features

Use high quality su304 stainless steel

Inside of leg support is soft sponge

Install on the side rail, clamp sold separately

IG Tab-5737.0025

Elbow Surgery Positioner

- All components are autoclavable
- Quick release allows for intraoperative check for range of motion
- Combines ease of use and adaptability to provide intraoperative positioning for supine elbow surgery

Main features

Use high quality su304 stainless steel

Install on the side rail, clamp sold separately

IG Tab-5737.0037

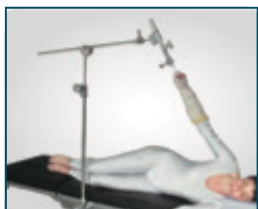

Accessories Cart KneeSupport

Mainly use to place table accessories
Provide more safety support during surgery
It's composed of main frame and mobile
Using a disposable conductive non-latex castors
pad
ARabdleiotlou 360° rotation freely

Main features

Use high quality su304 stainless steel
With self locking castors

Install on the side rail, clamp sold separately

IG Tab-5737.0024

Lateral Shoulder Holder

- Easy to operate , by simply adjust several traction knob to complete traction setting
- Simple structure, weightless
- All components are autoclavable
- Traction settings from 0-11KGS

Main features

Use high quality su304 stainless steel

Install on the side rail, clamp sold separately

IG Tab-5737.0039

Spine Frame

Spine frame provides stable and convenient platform for spine surgeries such as laminectomies, decompressions
You can adjust it to the desired lordosis to get optimal surgical site exposure
Weight capacity 227KG (500LB)
C arm compatible, use high quality sponge , safe and comfortable

Main features

Using carbon fiber material

Using high quality sponge , safe and comfortable

IG Tab-5737.0040

Shoulder Surgery Positioner

- Able to quickly and precisely locked patient's arm in desired position
- Single lever releases all joints for positioning and relocks
- Less man needed, simple and easy
- traction capacity: 227KG (500LB)

Main features

Use high quality su304 stainless steel

Install on the side rail

IG Tab-5737.0038

Legholder

Braces can safely hold patient's leg
20mm install pole
360° rotation is adjustable

Main features

The Braces is made from soft sponge

Equip with clamp

Install on side rail

IG Tab-5737.0017

Knee Positioner

Use to support and fix patient's leg Track
Locking Bracket securely locks the
base plate to the table with two thumb

screws Smooth sliding for leg positioning
During knees surgery, leg can extend,
flex, tilt and rotate controlled by ball joint

Main features

Using aluminum-magnesium alloy material

Disposable sterile boots liner

Install on side rail

IG Tab-401.000004

Shoulder Surgery Beach Chair

Separate detachable shoulder module for
easy access to shoulder area

The head mounting module can be rotated
and tilted

The pneumatic rod can be folded or lowered
and fix the control backboard

The two side boards can be detached or part
detached

Main features

Inside of liner is soft sponge

Install on side rail

IG Tab-1601.0510

COMFORT shoulder support

- Use to support patient's shoulder
- Ergonomic, special models suitable for
shoulder support
- It can be adjusted left and right
- Shoulder support can rotate freely

Main features

High quality su304 stainless steel or aluminum
can be choose

Inside of shoulder support is soft sponge

Install on the side rail, clamp sold separately

IG Tab-5737.0035(5737.0036)

Uro-Trapper Drain bag

- Durable drain bags are not made with
natural rubber latex
- Has mesh filter large bag mouth, rapid
drainage of fluids
- 10/CS

Main features

5737.0035 (Sterile)

5737.0036 (Non-sterile)

Size: 1630x20x510 mm

IG Tab-5737.0032

Uro-Trapper Support Ring

- It is used with drain bag to ensure
sanitation of surgery
- A flexible system that attaches to any
general surgical table to contain fluids
for hysteroscopy or cystoscopy procedures

Main features

It can be installed on any kind of operating table

Soft, flexible band shape
