ABOUT US

CREATIVE LAND
EQUIPMENT RENTAL L.L.C.

CREATIVE LAND EQUIPMENT RENTAL LLC

We are an engineering service-based company established in 2007 in Dubai UAE to provide Quality services on power supply & distribution for events. We have qualified and experienced Engineers/Technicians to provide services as and when needed.

Creative Land caters to sports & entertainment events, outdoor F&B events, weddings, live concerts and more. With full-fledged equipment & accessories, our team is successful in power supply & distribution with quality tech-support and 24/7 service.

Generator 10KVA To 1250KVA with ready to sync option - Tower Lights VT1/Terex - Power Cable, Distribution Board, Cable ramps, Fencing - Fuel Management - Prime / standby power with Auto Transfer switch.

ALL KINDS OF SOLUTIONS UNDER ONE ROOF

WE ARE CERTIFIED

POWER GENERATORS

CREATIVE LAND
EQUIPMENT RENTAL L.L.C.

- We have different Range of Generators starting with 10 kVA - 1250kVA
- All our equipments ARE FG WILSON (UK) AND CATERPILLER (USA) / CUMMINS
- We strive to satisfy all your power needs with 100% quality assurance
- Customized solutions curated for all kind of needs
- Trustworthy performance | Reliability | Durability
- High efficiency | Consistent delivery terms
- Ex Stock availability up to 1250 KVA in Dubai

TOWER LIGHTS

TEREX

The Terex offers heavy-duty light towers to fit virtually any lighting need — from construction sites & sporting events to mining and oil field applications. The 30ft (9.14m) extended-height floodlight tower provides 4,000 Watts of light and is designed to maximize uptime with quick disconnect lights and ballasts, 359° non-continuous tower rotation, heavy duty axles and chassis, and galvanized masts and outriggers.

VT1 Light Tower

The first light tower in the world with integrated vertical telescopic mast. The VT1 light tower has revolutionized the market for many years, becoming the best model of mobile light tower in the world. Thanks to the 4x1000W powerful metal halide floodlights and the 8.5 meters mast, the VT1 can illuminate very big working areas

POWER CABLES

A large outdoor event is powered by generators placed strategically around the site. This approach needs a high number of distribution units normally starting with a large current unit. There is also a need for a large quantity of cables.

Creative Land provides a qualitative range of diesel - generator along with Power Cables:

- Power Cables as per the capacity of Gensets
- Rubber flexible Cables Ranging from 16mm² to 240mm²; in various lengths

Power cables are often overlooked. Yes, it is mandatory to make a generator useful, but it's also taken for granted. If you need to run power to many different places on a project, lots of extra cable will be needed. And yes, Creative Land offers cable to rent, we can supply power cable to help you out. In most instances, CREATIVE LAND is using additional cable for projects we are associated with. That's the most common scenario. But yes, we can supply you power cable only if you have that need. Many of our projects require additional 'runs' of cable that a customer needs.

LOAD SHARING & SYNCHRONIZE

The process of matching parameters such as voltage, frequency, phase - angle, phase - sequence and waveform of generator or other source with a healthy or running power system is called synchronization. Generator cannot deliver power to electric power system unless its voltage, frequency and other parameters are exactly matched with the network. Synchronization is accomplished by controlling the exciter current and the engine speed of the generator.

The need for synchronization arrives, particularly when two or more generator are working together to supply the power to the load. This is because electrical loads are not constant and they vary with time and hence they necessitate the interconnection of two or more generator operating in parallel to supply larger loads

AUTO TRANSFER SWITCH [ATS]

- Fully automatic mains failure sensing and generator set start signal
- Pre-programmed enabling the panel to run on installation with the ability to customize if necessary
- Fast acting switches reduce transfer times between set and utility power
- Available from 63 – 3200A
- Automatic and manual operation
- Automatically provides generator set start signal upon detection of mains failure, overvoltage or loss of phase
- Automatic mains re-transfer function
- Flexible upgradeable options
- Manual switch operation possible via external handle
- LED functions display showing generator set / mains availability and switch position
- LCD display for voltage and timers
- Load transfer panel range meets ATS IEC 60947-6-1 standard

WELDING MACHINE

Towed and transported by vehicles our range of welding machines is ready to go, and ready to move with superior levels of efficiency. For Demanding jobs that call for high amperage capabilities, we have DC stick welding and AC Power. It is powered by a heavy-duty diesel engine with low maintenance and high fuel efficiency.

APPLICATIONS

- Pipelines
- Construction
- Maintenance

EQUIPMENT RENTAL L.L.C.

DISTRIBUTION BOARD

In the event planning stages our qualified electricians will make a full assessment of your power supply. After determining its adequacy and stability, we will advise you on the most effective power supply solution. Regardless of whether a single or 3-phase electricity source is deemed best for your needs, AV Direct Power will provide the necessary equipment and the expertise of our experienced electricians.

Our power supply and electrical related services, including generator hire and distribution boards, can ensure that your event, function or production is never affected by any power problems. To find out more about electrical power distribution and to discuss how our event power supply solutions can help you, please contact us.

POWER DISTRIBUTION BOARDS

- 400A - 4x 125 A, 4 x 63 A, 4X32A, CEE-Form
- 250A - 1x 125 A, 3 x 63 A, 3X32A, CEE-Form
- 160A - 2 x 63 A, 4X32A, CEE-Form
- 63A - 1 x 32 A (5Pin) 5x32A (3Pin)
- 63A - 2 x 32 A (3Pin) 4x16A (3Pin)

AIR COMPRESSOR

Towed and Transported by vehicles our range of air-compressors are ready to go and ready to move with superior levels of efficiency.

- 100 CFM to 900 CFM INGERSOLLRAND
- 100 CFM to 900 CFM ATLAS COPCO

100% SATISFACTION | 24x7 SERVICE | ALL OVER UAE

FUEL TANK

Creative Land diesel tanks are of high quality products and different models:

- Cylindrical type (double & single wall)
- Rectangular type (double & single wall)

FEATURES

- Single / double layer wall
- Forklift & Lifting hooks
- Inlet / output openings
- Transparent level gauge
- Inspection hole
- Main hole for maintenance and cleaning

OTHER ACCESSORIES

- Cable Ramps | Cable Protectors
- Fencing with Black or Green Mesh/Net
- Police Barriers
- Power Distribution
